No. P. 8-B of 1940.

OFFICE OF THE SURGEON-GENERAL
WITH THE GOVERNMENT OF BOMBAY :

Bombay, 28th February 1940.

From

MAJOR-GENERAL H. C. BUCKLEY, M.D., F.R.C.S.E., K.H.P., I.M.S., J.P., Surgeon-General with the Government of Bombay, Bombay No. 1 ;

To

THE SECRETARY TO GOVERNMENT,
General Department,
Bombay.

SUBJECT.—*Annual Report on Mental Hospitals in the Province of Bombay for the year 1939.*

Sir,

I have the honour to submit the Annual Report on Mental Hospitals in the Bombay Province for the year 1939.

BUILDINGS.

2. *Major Works.*—During the year under report, an amount of Rs. 77,500 was provided for constructing additional accommodation for 72 female patients at the Mental Hospital, Thana, and for improving the sanitary conditions of that hospital. Also an amount of Rs. 47,500 was provided for the construction of quarters for 48 attendants at the Central Mental Hospital, Yeravda. Both these works are in progress.

Minor Works.—Minor works costing about Rs. 2,077 were sanctioned at the various Mental Hospitals.

The buildings of the Mental Hospitals have been kept in good condition, the necessary repairs having been carried out by the Public Works Department.

The "New Extension" to the Central Mental Hospital, Yeravda has been completed and the buildings have now been occupied. The extension has provided an additional accommodation for 250 beds.

Water Supply.

3. The water supply had been wholesome and sufficient throughout the year at the Mental Hospitals, Thana, Yeravda and Ahmedabad. At the Mental Hospital, Ratnagiri, the scarcity of water was felt during the year under report and it is considered that it will be felt more keenly during 1940. A new scheme for bringing water from the Jail well is under contemplation and if it materialises there will be good relief. At the Mental Hospital, Dharwar, the pipe water supplied by the Municipality is not sufficient and is unfit for drinking purposes. Water from a tube well is used for drinking purposes. Two more tube wells are required and the same are proposed to be constructed next year. The hospital garden is partly supplied with water brought from outside by the hospital water cart.

Accommodation.

4. The "New Extension" at the Central Mental Hospital, Yeravda, was completed during the year under report thus providing additional accommodation for 250 patients at the hospital. In spite of this, overcrowding continued at all the Mental Hospitals, as can be seen from the following table showing accommodation and population in the first week of January 1940 :—

Mental Hospitals.	Accommodation in the first week of January 1940.			Population in the first week of January 1940.		
	Male.	Female.	Total.	Male.	Female.	Total.
Thana	240	78	318	320	152	472
Ratnagiri	134	42	176	158	43	201
Yeravda	764	443	1,227	813	514	1,327
Dharwar	138	61	199	174	62	236
Ahmedabad	206	61	267	254	86	340
Total ...	1,502	685	2,187	1,719	857	2,576

There were, thus, 389 patients (217 males and 172 females) in excess of the sanctioned accommodation. Taking into account the additional accommodation of 72 beds for female patients at the Mental Hospital, Thana, which will be available as soon as the work of construction which is in progress will be completed, there will still remain an excess of 317 patients.

5. Looking to the rapid increase in the rate of overcrowding, it has now been proposed to take up the work of extending the male side of the Mental Hospital, Thana, which will provide an additional accommodation for 96 beds in the beginning. Plans and estimates for this work have been submitted to Government and are under their consideration.

Further accommodation will be necessary to meet the excess population.

Staff.

6. During the year under report Government have sanctioned the following additional staff at the Central Mental Hospital, Yeravda, on a temporary basis :—

1 S.M.S. Officer.
1 Indian Overseer.
2 Indian Nurses.
1 Clerk.
34 Male Attendants.
11 Female Attendants.
4 Male Sweepers.
3 Female Sweepers.
2 Cooks.
3 Male Dhobis.
2 Barbers.

7. The post of a Woman S.M.S. Officer has been sanctioned at the N. M. Mental Hospital, Thana.

8. On account of the increase in the number of patients at the Mental Hospitals, proposals for additional medical and other staff have been submitted to Government and are under their consideration.

Hydrotherapy.

9. With a view to making improvements in the conditions in Mental treatment at the Mental Hospitals, Government have sanctioned the proposal for the introduction of hydrotherapy at Thana.

Employment and Amusements.

10. The employment of suitable patients on such works as gardening, weaving, tailoring, making coir mats, carpentry, cotton tape, bidi-making etc. and helping in the domestic duties (such as cooking, sweeping, washing of clothes etc.) connected with Mental Hospitals continued as usual.

11. *Amusements.*—Indoor and out-door games such as carrom, ping-pong, cards, volley-ball, foot-ball, badminton, cricket etc. were played by patients with great interest in appropriate seasons. Cinema shows, gramophone records and Indian drums were greatly appreciated by them. Entertainments by conjurers, illusionists,

acrobatics etc. were arranged for the patients in the hospital compound and were greatly appreciated by them. Newspapers and magazines were supplied to patients who were in a position to read. On important festival days they were supplied with sweets and special dishes at their meals. An amount of Rs. 2,591 was expended on amusements and recreation to patients during the year under report.

VISITORS.

12. The official visitors at all the Mental Hospitals were regular in their attendance and the remarks passed by them were satisfactory.

GENERAL.

13. *Provision for Parole.*—Great advantage was taken by the relatives and friends of patients of the provision for sending the patients on parole which was made in the Indian Lunacy Act last year. As many as 169 patients were taken on parole by their relatives during the year under report.

14. The scheme for the provision of special accommodation and facilities to patients who are prepared to pay for such additional amenities introduced at the Central Mental Hospital, Yeravda, as an experimental measure worked successfully during the year. Government have been requested to sanction it as a permanent measure.

15. We express our thanks to all the persons and bodies who have extended their generosity towards providing additional comforts to the inmates of the various Mental Hospitals.

STATEMENT No. I

16. *Population.*—The following table shows the admissions, population and the daily average strength of patients in the Mental Hospitals during the year 1939 and the previous year :—

	1938.			1939.		
	Male.	Female.	Total.	Male.	Femal	Total.
Total admissions	658	261	919	741	283	1,027*
Total population	2,162	1,017	3,179	2,321	1,069	3,390
Daily average strength ...	1,553·0	766·5	2,319·5	1,661·9	824·1	2,486·3

Of this number 17 (38 males and 9 females) were readmitted.

The figures show a considerable rise in the admissions, population and the daily average strength.

17. *Discharges and Cures.*—During the year under report, 337 patients were discharged as "Cured", 91 as "Improved", 37 as "Not improved" and 207 were discharged "Otherwise". Cases discharged on Parole are included under "Otherwise". The ratio of "Cured" to the daily average strength was 13·6 as against 15·1 during 1938.

18. *Sickness and Mortality.*—The daily average number of sick treated in Mental Hospitals was 126·4 against 108·5 in 1938. The percentage of sickness to the daily average strength was 5·08 against 4·6 in 1938. The health of the patients was generally good. There were no epidemic diseases in the Mental Hospitals during the year under report.

19. During the year 1939, the total deaths at the Mental Hospitals numbered 166 against 195 in 1938 and 171 in 1937. The ratio of deaths percentage to the daily average strength was 6·7 against 8·4 in the previous year. The sub-joined table gives the ratio of deaths percentage to the daily average strength at the several Mental Hospitals during 1939 and the previous year :—

Mental Hospitals.	1938.			1939.		
	Male.	Female.	Total.	Male.	Female.	Total.
Thana	8·1	6·1	7·4	6·2	4·7	5·7
Ratnagiri	1·3	4·8	2·1	3·2	2·5	3·03
Yeravda { Europeans ...	2·1	3·6	2·6	2·04	1·7	1·9
Yeravda { Indians ...	10·05	8·05	9·3	9·6	5·07	7·9
Dharwar	8·2	11·1	8·9	5·8	3·4	5·2
Ahmedabad	13·2	13·8	13·4	8·6	11·9	9·5
Total ...	8·6	7·9	8·4	7·4	5·2	6·7

The chief causes of deaths among the inmates of the Mental Hospitals were dysentery (16), syncope (16), tuberculosis (24), status epilepticus (12), phthisis (12), anæmia (9), nervous diseases (9), exhaustion (7), senility (7), inanition (6), etc.

It is worthy of notice that the death rate at the Thana Mental Hospital which was high in the past is gradually falling down as can be seen from the percentage death rate since 1936 :—

1936	1937	1938	1939
21·1	12·4	7·4	5·7

The Superintendent of the hospital reports that this is largely due to strict supervision of food and daily routine instituted in the hospital. The work of the anti-malaria squad under the supervision of the Sanitary Inspector has been satisfactory during the year and has helped to reduce the incidence of malaria.

STATEMENT No. II.

20. In the year 1939, 384 cases were observed at the various Mental Hospitals. Of these 322 were certified and admitted and 50 released as uncertifiable.

STATEMENT No. III.

21. *Criminal Insanes.*—The total number of criminal insanes confined in Mental Hospitals was 176 (159 males and 17 females), with a daily average strength of 95·8. Of these 119 were admitted under Section 466 of the Criminal Procedure Code, 16 under Section 471 (*ibid*) and 41 under Section 30 (1) of the Prisoner's Act, 1900.

STATEMENT No. IV.

22. *Religion.*—Of the total number of patients admitted for treatment, 688 were Hindus, 174 Muslims, 21 Europeans and Anglo-Indians, 55 Indian Christians and 89 belonged to other castes.

STATEMENT No. V.

23. *Ages of Insanes admitted.*—The ages of insanes admitted for treatment during the year under report were as shown below:—

Below 20 years	76
Between 20 to 40 years	716
Between 40 to 60 years	210
Upwards of 60 years	25
Total ...	1,027

STATEMENT No. VI.

24. *Forms of Mental Disorder.*—The principal forms of Mental Disorder treated during the year 1939 were:—

	Number of cases.
Mania	661
Melancholia	538
Schizophrenia including Dementia Præcox ...	459
Manic Depressive Insanity	392
Mental Deficiency	259
Paranoia and Paranoid States	202
Secondary Dementi	181
Cannabis Indica Psychosis	177

Statement No. VII.

25. *Probable cause of Insanity among patients.*—The principal pre-disposing and exciting causes among patients were:—

Mental Stress	390
Toxins	164
Hereditary Predisposition	130
Bodily illness	103
Old age	88
Epilepsy	86

Statement No. VIII.

26. *Cash Accounts : Receipts.*—The receipts from paying patients during the year under review amounted to Rs. 2,20,362 against Rs. 2,09,727 in the previous year. The main increase is at the Central Mental Hospital, Yeravda, partly due to the increase in the number of paying patients and partly to the provision of special accommodation and facilities for well-to-do patients who are prepared to pay at the higher rates for special amenities. The value of stores received from the manufacturing departments less the cost of raw materials was Rs. 25,681 and miscellaneous receipts amounted to Rs. 2,228. The total receipts under the three heads amounted to Rs. 2,48,271 against Rs. 2,24,092 in 1938.

27. *Expenditure.*—The gross expenditure for maintaining the Mental Hospitals amounted to Rs. 9,56,544 against Rs. 9,64,161 in 1938. Deducting the receipts from the actual expenditure, the net cost to Government was Rs. 4,60,002 against Rs. 4,91,543 in the previous year. The decrease in the cost in spite of the increased number of patients is due mainly to the decrease in the charges on account of the works done by the Public Works Department.

28. The following table shows the cost per patient per annum of the daily average strength in the Mental Hospitals during the year under report and the previous year :—

Mental Hospitals.	1938*	1939*	Remarks.
	Rs.	Rs.	
Thana	270	237	
Ratnagiri	183	180	
Yeravda	348	311	Admits European patients also.
Dharwar	155	137	
Ahmedabad	173	160	

* The amounts spent on original works (Major and Minor) at the Mental Hospitals are excluded from the expenditure in calculating the cost per patient per annum.

29. A summarised report of the Central Mental Hospital, Yervada, is printed as an appendix.

I have the honour to be,

Sir,

Your most obedient servant,

(Signed) H. C. BUCKLEY,

Major-General, I.M.S.,

Surgeon General with the Government of Bombay.

Annual Report of the Central Mental Hospital, Yeravda, for the year 1939.

Administration.

Lt.-Col. E. C. A. Smith, I.M.S., was Superintendent throughout the year.

Accommodation.

On the first January, 1939, there were 1,232 patients compared with 1,131 patients on the same date of the previous year.

The daily average number in residence was 1,290 as against 1,195 for the year 1938. The number in residence on 31st December, was 1,331.

The "New Extension" provides spacious and modern kitchens, dining rooms and occupational therapy rooms and the buildings which were used hitherto for such purposes have now been converted into wards or dormitories and so the present total Hospital accommodation is for 1,227.

Admissions.

Admissions during the year were 378 males and 185 females, a total of 563 as against 531 for the previous year.

Of these admissions, 43 were voluntary boarders and 12 were readmissions.

The total number of patients treated during the year was 1,795.

Of the patients discharged from Hospital during the year, 177 patients were considered as "recovered" 46 as "improved" 14 as "not improved" and 135 as "otherwise". The last group includes 108 patients discharged on parole and 7 patients transferred to Mental Hospitals in other provinces.

There were 92 deaths during the year. The death rate, worked out as a percentage of the average number in daily residence, was 7·13.

Among the deaths were a number of seriously ill and senile cases:—

13 died within a month of admission,

14 died within 3 months of admission.

Of the senile cases 13 were over 50 years of age and 8 over 60 years. Amongst the deaths were also a number of chronic cases:—

4 had been in Hospital for over 10 years,

2 had been in Hospital for over 20 years,

2 had been in Hospital for over 36 years,

1 had been in Hospital for over 50 years.

The general health of the Hospital was good. There was no epidemic disease during the year.

Special Facilities.

The scheme continues to be popular and more relatives are coming forward to have their charges treated as 1st or 2nd class patients.

Occupational Therapy.

A large weaving shed and a carpenter's workshop are now in full working order. This has enabled us to supervise the patients more effectively and to occupy them as far as possible.

Recreation.

The monthly dances and weekly socials on Tuesday evenings were continued as usual as well as drives to Poona, to church and to the cinema. In addition, through the generosity of private individuals, we have been able to provide entertainments by conjurers, illusionists, etc. From similar sources we are able to mark important festival days of the various communities by providing sweets and special dishes at their meals. The usual games and walks outside the Hospital were provided throughout the year.

Staff.

The quota of staff sanctioned by Government Resolution, General Department, No. 3198/33, dated 20th April 1939, temporarily may now be made permanent.

Four new quarters (2 for clerks and 2 for compounders) were constructed during the year and quarters for 48 servants are under construction. However, quarters will still be required for the 59 servants recently sanctioned in Government Resolution, General Department, No. 3198/33, dated 20th April 1939.

Finance.

The total receipts during 1939 were Rs. 6,56,662 as against Rs. 6,50,325 for 1938.

Acknowledgments.

We express our thanks to Mr. K. M. Mody, Director, Western India Theatres, Limited, Poona, for allowing some of our patients to attend at three performances a week free of charge. We are also indebted to Mr. P. C. Guzdar of Bombay who never forgets each year to provide for special meals for the Parsi inmates on the occasion of the Parsi New Year.

(Signed) E. C. A. SMITH,
Lt.-Col., I.M.S.,
Superintendent,
Central Mental Hospital, Yeravda.
